

June 23, 2014

Dear Emdeon Partners:

On June 23, 2014, Emdeon Inc. announced it had entered into a definitive agreement to acquire Capario, an innovative company providing industry-leading healthcare revenue cycle management solutions. The acquisition is subject to customary closing conditions, including expiration or early termination of the waiting period under the Hart-Scott-Rodino Act, and is expected to close in the third quarter of 2014. Until the deal closes, each company will continue to operate independently and will operate its business as usual.

The pending acquisition of Capario will increase Emdeon's value for our partners by leveraging their advanced real-time, cloud-based platform. When combined with the Emdeon Intelligent Healthcare Network™, Capario will enable us to bring innovative products to market faster and enhance our ability to help our provider customers manage their revenue cycle from end-to-end.

With our combined capabilities, Emdeon will enhance our ability to provide a superior data-driven, patient-centric view of administrative elements of the care process, helping to improve outcomes and reduce cost across the healthcare ecosystem.

We are excited about the future opportunities this acquisition will offer our partners and the industry as a whole. Should you have any questions or need additional information, please do not hesitate to contact us.

Sincerely,

Neil de Crescenzo

President and CEO
Emdeon
