

Is Your Practice Worried About Changes in Today's Reimbursement Environment?

ACO Partner is an independent, physician-centric services organization that gives primary care providers (PCPs) the data analytics and care coordination capabilities they need to succeed in the transition to value-based care.

How is ACO Partner Different?

- **We are NOT an Accountable Care Organization.** We do not charge membership fees, create burdensome reporting requirements, or force risk-sharing on your practice.
- **We offer PCPs the chance to earn shared savings through value-based payer contracts.** Our first contract is for commercial plans managed in partnership with Blue Cross® Blue Shield® of Arizona.
- **ACO Partner will not change your current fee schedule.** We can help you earn additional bonuses for efficient and high-quality performance.
- **ACO Partner is not exclusive.** Providers can enroll in ACO Partner while still participating in any other value-based program.
- **Our services are offered at no cost to the provider.** Data analytics, network management services, and care coordination are available at no charge to participating providers.
- **We help you stay focused on patient care.** ACO Partner manages all partnership-related administrative tasks and reporting on behalf of your practice.
