

Inspiring a Better Healthcare System

Who We Are

Change Healthcare is a leading independent healthcare IT company operating throughout the U.S.

We offer software, analytics, network solutions, and technology-enabled services to help create a stronger, more collaborative healthcare system. We help deliver measurable value not only at the point of care, but also before, after, and between care episodes.

Our Focus

A Connected Healthcare Ecosystem

Clinically integrated systems—within the four walls of a hospital and externally, within the community—are a necessity in healthcare today. With our partners, we accelerate interoperability, reducing the time and effort needed to track down patients' medical records.

Reducing the Costs of Healthcare

Change will always be a constant in healthcare. We are committed to helping our customers deliver better care and realize improved outcomes. We help customers operate more efficiently and effectively, including optimizing their participation in value-based care models.

Improving Quality Outcomes

This is a critical time for healthcare in the U.S. Payers, providers, and policymakers alike recognize the importance of the shift to value-based care. Through a combination of analytic tools and care coordination services, we help providers reach their patient populations to improve outcomes and enhance the patient experience.

Our Locations

We have development, service, and data operations centers in 30+ states.

Key Locations

- Nashville, TN (Headquarters)
- San Francisco, CA
- Atlanta, GA
- Boston, MA
- Chicago, IL
- Philadelphia, PA

Our Solutions

Change Healthcare occupies a uniquely interconnected position at the center of healthcare, serving providers, payers, and patients. As an independent healthcare IT company, we work with multiple platforms to address diverse needs.

- Our **provider solutions** help providers increase patient access, ensure clinically appropriate care, and manage claims and payments across the revenue cycle.
- Our **payer solutions** address payment accuracy, consumer and member engagement,

network management, and the transition to value-based payment.

- The **Intelligent Healthcare Platform™** powers our unified portfolio of solutions. This enterprise platform enables new levels of collaboration, offers secure data analysis and intelligent insights, and a common experience across solutions that enables our customers to consolidate vendors, improve workflow, reduce time and inefficiencies and explore true product innovation.

Key Areas of Policy Expertise

Supporting Interoperability

- Trusted Exchange Framework and Common Agreement (TEFCA) principles and FHIR-based APIs
- Privacy and confidentiality of de-identified health data
- HIPAA modernization

Enabling Value-Based Care

- Integration of Appropriate Use Criteria (AUC) into clinical workflow
- Standardizing the use of Electronic Prior Authorization (ePA)
- Data and analytics supporting quality measurements and value-based payments

Promoting Consumer Engagement and Transparency

- Consumer access to and engagement with their health data
- Cost and quality data translated into actionable information
- Consumer friendly price and quality transparency

About Change Healthcare

Change Healthcare is a leading independent healthcare technology company that provides data and analytics-driven solutions to improve clinical, financial and patient engagement outcomes in the U.S. healthcare system. We are a key catalyst of a value-based healthcare system, accelerating the journey toward improved lives and healthier communities.
