

Retrieve, Send, and Track Electronic Orders and Results Quickly Without EMR Access

Satisfy customers and providers with a turnkey solution that delivers secure, clean electronic orders and results without having to connect to electronic medical records.

8 Reasons to Implement Clinician Lab Portal:

Streamline and simplify workflow. Rely on our simple online ordering and resulting stand-alone platform for providers.

Help reduce reliance on paper requisitions. Speed the billing process with accurate, clean orders the first time.

Improve efficiency and communication. Update providers immediately with customized AOE's based on your lab's needs.

Help reduce maintenance. Free up IT staff and maintenance requirements by establishing an initial connection and letting us take care of the rest.

Customize your portal. Use your own branding with our Lab Portal and eliminate the need to develop your own solution.

Improve customer care and provider satisfaction. Deliver high-quality care and help ensure customer and provider confidence with a secure, reliable portal system.

Help reduce operating costs. Eliminate IT spend associated with maintaining a proprietary portal.

Speed to market. Reduce provider onboarding time and get up and running in just days on our stand-alone turnkey platform.

Deliver clean, electronic records and help reduce costs with our secure, reliable Clinician Lab Portal.
