

Internship Program

Launch Your Career Now

The Big Picture

The internship program provides opportunities to gain practical work experience in a business environment. As a full-time, paid intern, you will be engaged in a variety of projects, and responsible for delivering results, both as an individual and as a member of a team. We welcome your fresh perspective and energy, as you gain experience in a fast-paced business environment. This is a great opportunity to jump start your career!

Development

The internship program begins with orientation, which will provide you with all the necessary information and resources to ensure your success over the course of the 12-week program. After orientation, you will begin to work with your assigned manager and team on various projects throughout your internship; you will receive ongoing feedback, as well as formal performance reviews. In your final weeks at Change Healthcare, you will participate in a presentation to the executive leadership team and your individual team, reviewing the projects in which you have been engaged and the value you have added to the organization. Every aspect of this internship program is designed to enhance professional development.

Intern Events

Interns will participate in many other exciting events throughout the summer, including:

- **Volunteer Events:** Work together and engage with organizations in our community
- **Data Center Tour:** Learn about our business and how we ensure that our data remains secure
- **Lunch and Learns:** Interact with business leaders from across the organization and explore multiple segments of our business
- **Social Outings:** Develop relationships and have some fun!

Our Vision

Inspiring a better healthcare system.

Our Values

Pursue Purpose

We're here to make healthcare work better. The opportunity to help improve a person's life propels us forward.

Earn Trust

We act with integrity, and are accountable for our actions, working hand-in-hand with our customers to create productive and valued partnerships that lead to success for all.

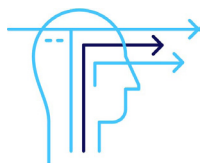

Champion Innovation

We move fast and advance with a visionary approach and a pragmatic eye, turning today's brainstorming into tomorrow's solutions.

Include All

We celebrate different ways of thinking and know that great ideas can come from anywhere. By bringing diverse perspectives together, we push ourselves to continue to learn, to stay fresh and refreshed.

Be Agile

We equally focus on speed and stability which enables us to be both reliable and nimble as we adapt quickly, get things done, and never stop searching for the best answer.
