

HOW THE CHANGE HEALTHCARE INTELLIGENT HEALTHCARE NETWORK GETS EVEN SMARTER WITH BLOCKCHAIN

Change Healthcare today announced the launch of the first blockchain solution for enterprise-scale use in healthcare, enabling payers and providers to boost revenue cycle efficiency, cut costs, and create innovative new services.

The company's Intelligent Healthcare Network™ is used to process 12 billion healthcare-related transactions covering over \$2.0 trillion in claims annually.

Benefits of Blockchain

A new, distributed healthcare data ledger applied to revenue cycle and payment process enables:

- Decentralized data available to all stakeholders
- Faster transaction processing speed
- Lower overhead and cost
- Immutable historical healthcare data record
- Transparency of transactions
- Higher payment accuracy and visibility
